Dear Jacky and Staff,

I wanted to say “Thank You” for all of the help and advice that you have given to our office. When we were relocating our office your knowledge and expertise was very helpful. I was feeling overwhelmed and not sure of everything that I needed to do and which steps to do it in. One phone call to you answered my prayers. You not only handled everything for us you also brought our office up to date. Your backup system, the new computer you built for our specific needs and your tech support is top of the line. On top of that, your scanning and shredding of our old documents was very helpful for our new office did not have the space needed to store all of those files. By the way, I had to look up some information from years ago and it was so easy to do. You set it up for people like me that isn’t very computer knowledgeable. I also appreciate your kindness and patience with me, as I just said Im not very wise in the world of computers. I think the best of all is when I call in to ask a stupid question I actually have a person on the other end of the phone that knows me and my needs not someone in another country that is trying to walk me through something and I can’t understand a word they are saying. Your office being local and your help being a phone call away is the “BEST”. Thank you and your staff, your such a blessing to me.

Yours truly,
Patricia Powell
Office Manager
